***Definitions:**

- Building Area:** The greatest horizontal area of a building above grade within the outside surface of exterior walls or within the outside surface of exterior walls and the centerline of firewalls.
- Floor Area:** The space on any storey of a building between exterior walls and required firewalls including the space occupied by interior walls and partitions, but not including exits, vertical service spaces, and their enclosing assemblies. (Include basements)
- Gross Area:** The total area of all floors above grade measured between the outside surfaces of exterior walls or between the outside surface of exterior walls and the center line of firewalls, except that, in any other occupancy than a residential, where an access or a building service penetrates a firewall, measurements shall not be taken to the centerline of such firewall.
