Location & Property Context:

The subject property is located on the north side of Nith River Way, east of the intersection of Nith River Way and Northumberland Street, as shown on the location map below (Figure 1).

The property is municipally addressed as 6 Nith River Way. The irregularly shaped lot is approximately 1,000 m² (0.25 acres) in size with a corresponding lot frontage of 18.4 m (60 feet) onto Nith River Way.

The subject property consists of a single-detached dwelling and an accessory structure, and is currently serviced by municipal water and wastewater. Surrounding land uses are primarily urban residential.

Figure 1: Location Map

Purpose and Effect of the Planning Application:

The purpose of the proposed minor variance application is to address a reduction to the required side yard setback, which is necessitated by a proposed addition to the existing single-detached dwelling and construction of a new covered porch attached to the dwelling. The property is zoned Z.4a (Urban Residential) under General Zoning By-law 689-83.

The Applicant is proposing an addition to the existing single-detached dwelling, which would add floor

space to both the first and second storeys of the dwelling. A new covered porch/entrance is also proposed on the west-facing side. This addition would make both the east and west sides of the dwelling two storeys in-height, where currently only the east side has a two-storey building height.

As the west-facing side of the dwelling would become two storeys (currently one-storey), it will need to comply with the 2.4 metre side yard setback requirement for two-storey dwellings. The proposed covered porch within this same side yard will also require relief from the setback requirement.

The following minor variance is therefore requested from General Zoning By-law 689-83:

1. Section 8.3.3 b) of General Zoning By-law 689-83 establishes that the minimum side yard setback for a two-storey dwelling shall be 2.4 metres. The applicant seeks relief to permit a reduced side yard setback of 2.3 metres from the west-facing wall of the principal dwelling, and 1.2 metres from the proposed covered porch within this same side yard.
