## **Purpose and Effect of the Planning Applications:**

The purpose of the proposed Minor Variance application is to facilitate the construction of an addition to the rear of an existing industrial operation.

In December 2024, a fire destroyed the rear portion of the building. The damaged area was subsequently demolished, and the proposed addition will replace the lost floor area with an expanded footprint. Council granted an exemption from Site Plan Control for this reconstruction in June 2025.

The proposed addition will have a total area of approximately 3,118.5 m<sup>2</sup> (33,567.25 ft<sup>2</sup>) and a

building height of 13.64 m (44.75 ft). The owner is requesting a variance to exceed the permitted building height. The owner is also requesting three additional variances to recognize existing conditions and bring the subject property into compliance with the applicable zoning regulations.

A concept plan is attached to this Notice for review. The property is zoned Z.9—Industrial in General Zoning By-law 689-83.

The following minor variances are being requested by the Owner from General Zoning By-law 689-83 as set out below:

1. Section 6.4.1 of General Zoning By-law 689-83 establishes that no person shall erect or cause to be erected an accessory building between any building lines established by this By-law. The Owner seeks relief from this provision to permit the existing accessory building (labelled Ex. Bldg. A) to be located between the established building line.
2. Section 6.13.1(b) of General Zoning By-law 689-83 establishes that all off-street parking areas shall be situated to the rear of the building line or lines. The Owner seeks relief from this provision to permit off-street parking in front of the building line.
3. Section 15.3.7 of General Zoning By-law 689-83 permits a maximum building height of 13.5 m. The Owner seeks relief from this provision to permit a building height of 13.64 m, an increase of 0.14 m.
4. Section 15.3.10(a-c) of General Zoning By-law 689-83 establishes that outside storage shall not be permitted in front of the main building, shall not be permitted in any required side yard and must be screened. The Owner seeks relief from this provision to permit outside storage in front of the main building, within a required side yard and visible from the road frontage.
