Location & Property Context:

The subject property is located on the south side of Maple Manor Road, east of the intersection of Misty Maple Trail and Maple Manor Road, as shown on the location map below.

The property is municipally addressed as 1211 Maple Manor Road. The lot is 1 acre (4,086 m²) in size with a corresponding lot frontage of approximately 33.5 m (109.9 ft) onto Maple Manor Road.

The subject property consists of a one-storey single detached dwelling on private services. Surrounding land uses are primarily agricultural and rural residential in nature.

Figure 1: Location Map

Purpose and Effect of the Planning Applications:

The purpose of the proposed minor variance application is to facilitate the construction of a single storey detached garage on the east side of the dwelling located at 1211 Maple Manor Road.

The proposed detached garage will have a total floor area of approximately 110 m² (1,184.4 ft²) and a height of 6.17 m (20.25 ft). A separation distance of 1 m (3 ft) is proposed between the principal dwelling and the detached garage. The garage is proposed to be located within the required side yard of the principal dwelling.

In addition, a retaining wall is proposed between the detached garage and the east property line to accommodate changes in grade. The retaining wall will form a portion of the driveway and wrap around part of the detached garage, with a maximum height of 1.83 m (6 ft).

As per Section 2.213 of General Zoning By-law 689-83, structure is defined as:

Structure – means anything constructed or erected, the use of which requires location on or in the ground, or an attachment to something having location on the ground. It does not include a fence, pavement, curbs, walks, retaining walls under 0.91 metres in height, or signs.

Based upon the definition as set out above, the proposed retaining wall shall be considered a structure as it is greater than 0.91 m in height and is subject to the regulations set out under Section 6.4 of the General Zoning By-law.

The proposed retaining wall structure will be located 0.3 m (1 ft) from the property line.

A concept plan is attached to this Notice for review.

The property is currently designated “Settlement Residential and Ancillary” on Map 2.19 of the Township Official Plan. The property is zoned Z.2a – Rural Residential in General Zoning By-law 689-83.

The following minor variances are being requested by the Owner from General Zoning By-law 689-83 as set out below:

1. Section 6.4.1 of General Zoning By-law 689-83 establishes that no person shall erect any accessory building within a required side yard. The owner seeks relief from this provision to permit the proposed detached garage within the required side yard.
2. Section 6.4.2 of General Zoning By-law 689-83 establishes that no person shall erect any accessory structure closer than 1 metre (3 feet) from any interior or rear lot line. The owner seeks relief from this provision to permit a retaining wall to have a setback of 0.3 m (1 ft).
3. Section 6.4.7 of General Zoning By-law 689-83 permits a maximum accessory building height of 5.2 m. The owner seeks relief from this provision to permit a maximum building height of 6.2 m
