Location & Property Context:

The subject lands are situated within the Ayr urban area boundary on the south side of Newell St, east of the intersection of Willison Street and Newell Street, as shown on the location map below.

The property is municipally addressed as 11 Newell Street. The rectangular shaped lot is approximately 1,248 m² (13,433 ft²) in size with a corresponding lot frontage of approximately 24.5 m (80.3 ft) onto Newell Street.

The subject property consists of a one-storey single detached dwelling on municipal services. Surrounding land uses are primarily urban residential.

Purpose and Effect of the Planning Applications:

The purpose of the proposed Minor Variance application is to facilitate an addition to the existing one-storey single detached dwelling on the subject property.

The proposed addition includes a new attached single-car garage on the west side of the dwelling, alongside the existing attached single-car garage. A second-storey addition will be constructed above both garages to accommodate a new primary bedroom.

The addition will also expand the main floor to provide additional interior living space, including a mudroom, bathroom, and living area extending toward the rear of the dwelling. At the basement level, a portion of the addition will accommodate a recreation room with a proposed walk-out to the rear yard.

The proposed addition will result in an overall building footprint increase of approximately 87.66 m² (943.53 ft²). The second-storey addition will have an area of approximately 67.42 m² (725.72 ft²). The basement level will provide an additional 55.41 m² (596.45 ft²) of floor area. The proposed addition will result in a total additional floor area of approximately 210.49 m² (2,265.70 ft²) across all three levels.

The proposed addition will result in a reduced interior side yard setback along the side of the dwelling. A variance is therefore requested to permit the proposed addition to be located closer to the interior side lot line than permitted by the Zoning By-law.

In addition, a variance is requested to permit a reduced front yard setback to facilitate the extension of the existing covered front porch. The proposed porch extension will project approximately 1.83 m (6 ft) further toward the front lot line than the existing porch.

A concept plan is attached to this Notice for review.

The property is zoned Z.4 – Urban Residential in General Zoning By-law No. 689-83.

The following minor variances are being requested by the Owner from General Zoning By-law 689-83 as set out below:

1. Section 6.10.1 of General Zoning By-law No. 689-83 establishes that the building setback shall be a distance equal to the distance between the street line and the closest point of the existing building. The existing building line setback is 8.9 m. The Owner seeks relief from this provision to permit a building line setback of 7 m, a reduction of 1.9 m.
2. Section 8.3.3b) of General Zoning By-law No. 689-83 requires a minimum side yard setback of 2.4 m. The Owner seeks relief from this provision to permit a side yard setback of 1.3 m, a reduction of 1.1 m.
