Purpose and Effect of the Planning Applications:

The purpose of the proposed Minor Variance application is to facilitate the construction of a coach house and a single-storey accessory building in the rear yard of the subject property. The accessory building, intended to be a garage, will be attached to the proposed coach house.

The proposed accessory garage will be 7.01 m x 6.7 m (23 ft x 22 ft) in size with a total area of approximately 47 m² (506 ft²).

**Notice of Statutory Public Meeting
Minor Variance Application A-01/26**

The proposed coach house is irregularly shaped and will have a total area of approximately 154 m² (1,654 ft²). The coach house will have a building height of approximately 5 m (16.4 ft). A basement is also proposed within the coach house to accommodate the necessary mechanical equipment.

The principal dwelling unit has a building footprint of approximately 241.5 m² (2,600 ft²). The proposed coach house is permitted to be 40% of this size, which is approximately 96.6 m² (1,040 ft²). The owner is requesting a variance to exceed this size limit.

The coach house will be accessed using the existing driveway entrance on Shellard Road. A concept plan is attached to this Notice for review.

The property is zoned Z.1 – Agriculture with site specific zoning exemption 20.1.191 in General Zoning By-law 689-83.

The following minor variances are being requested by the Owner from General Zoning By-law 689-83 as set out below:

1. Section 6.40.7 of General Zoning By-law 689-83 permits a maximum coach house size of 40% (96.6 m²) of the footprint of the principal dwelling unit. The Owner seeks relief from this provision to permit a maximum size of 64% (154 m²) of the footprint of the principal dwelling unit.
2. Section 6.40.10 of General Zoning By-law 689-83 establishes that a basement is not permitted in a coach house. The Owner seeks relief from this provision to permit a basement in the coach house.
