Civic Address:	1143 Maple Manor Road, Township of North Dumfries
Assessment Roll No.:	300104000110504
<u>Public Meeting:</u>	<u>Tuesday March 25th, 2025, at 6:00 pm</u>
Location:	In-Person Participation: 2958 Greenfield Road, North Dumfries Community Complex, Dumfries Room, Ayr Virtual Meeting Participation: See Appendix “A” as to how to participate in the virtual meeting.

Purpose of Statutory Public Meeting:

The purpose of the Public Meeting is to present background information and to receive public and agency input on the proposal. Any person may participate in the hybrid Statutory Public Meeting by attending in-person or virtually (see Appendix A to this Notice for directions to participate virtually) and/or provide written comments on the proposal and/or may make verbal representation at the time of the meeting.

Location & Property Context:

The subject property is located on the south side of Maple Manor Road, west of the intersection of Maple Manor Road and Misty Maple Trail and within the Ranchlands rural settlement area.

The subject property is approximately 4,675 m² (1.15 acres) in area with a corresponding lot frontage of approximately 30.7 m (100.72 ft) onto Maple Manor Road.

The property is developed with an existing single-detached dwelling on private services. The location map below provides an aerial view of the subject property.

Figure 1: Location Map

Purpose and Effect of the Planning Applications:

The purpose of the proposed minor variance application is to facilitate the construction of a two-storey detached garage in the rear yard of the subject property.

The proposed detached garage will be 9.14 m x 12.19 m (30 ft x 40 ft) in size with a total area of 111.48 m² (1,200 ft²). The first storey of the proposed accessory building will consist of a two-car garage, and the second storey is proposed to be utilized as additional storage space for yard equipment, tools, and similar items. The proposed detached garage will have a building height of 6.24 m (20.5 ft).

Currently, the property includes four accessory buildings: three similarly sized sheds and one pool shed. With the addition of the proposed detached garage, the total lot coverage for all accessory buildings will exceed the permitted maximum of 3%. To address this, the owner plans to remove the three existing sheds identified below in Figure 2 once the new garage is complete. This adjustment will leave only the pool shed and the new accessory building, resulting in a total lot coverage of 2.5%, which complies with the permitted maximum.

Planning staff intend to recommend a condition for the minor variance approval that requires the removal of the three sheds upon completion of the proposed accessory building to ensure the lot coverage of all accessory buildings remains within the 3% limit.

Minor Variance Application A-02/25**

A concept plan of the proposed development is attached to this Notice for review.

The property consists of split zoning with the majority of the property zoned as Zone Z.2a (Rural Residential) and a small portion of the rear zoned as Z.1 (Agriculture) in General Zoning By-law 689-83.

The following minor variances are being requested by the Owner from General Zoning By-law 689-83 as set out below:

1. Section 6.4.7 of General Zoning By-law 689-83 establishes that no accessory building shall exceed 5.2 m in building height. The owner seeks relief from this provision to permit an accessory building height of 6.24 m for the proposed detached garage.
2. Section 8.3.7b) of General Zoning By-law 689-83 establishes a maximum accessory building height of 5.2 m. The owner seeks relief from this provision to permit an accessory building height of 6.24 m for the proposed detached garage.
