**Rounding of Fees:** Per Canada Revenue Agency : Rounding should only be used on the total amount charged after the calculation of any applicable duties or taxes such as the Goods and Services Tax (GST)/Harmonized Sales Tax (HST). For more information see Phasing out the penny: tax implications for businesses. The GST/HST is calculated on the amount charged for taxable supplies. Rounding should take place after the GST/HST is calculated on the invoice, and **only when the customer is paying the total amount of an invoice in cash or paying the balance of an invoice in cash.**
